# ENGLAND AND RUSSIA AGREE TO ARBITRATE

## LIABILITIES OF POWERS WILL SUBMIT THE CONCERN DISPUTE TO BOARD. HEAVY.

**Realty Syndicate Has Increased Its Indebtedness in a Year's Time By \$916,123 and is Paying Double Interest.**

**Records Being Searched to Learn Whether the Full List of Company's Mortgages Are Listed in Its Report.**

**San Francisco Examiner, Oct. 28, 1904**  
The Oakland Realty Syndicate according to its own statements increased its indebtedness during the past year on unsecured notes (investment certificates) by the sum of \$441,242.14. The increase of the debt secured by mortgage on real estate was \$216,650. The increase in bills payable by the corporation on October 7 of this year as compared with the like debt due on October 17 last year, was \$255,221.40. That is a total increase of the debt during the year of \$916,123.74. On the other hand the syndicate's income from sales of real estate amounted to \$761,024. These are their own figures. Statements are currently made in Oakland that the mortgage indebtedness is understood by the syndicate but as to this The Examiner for the present makes no charge until a search of the records now in process discloses the facts.

To offset this vast increase of debt the syndicate alleges an increase in the value of its real estate holdings amounting to \$1,235,400.38 and an increase in the value of its stocks and bonds of \$182,655.61. What relation this alleged increase in the value of the real estate bears to the fact none but an expert can say. If there were intent to deceive the real estate might be easily marked up \$5,000,000 or \$10,000,000 in value as a two-story building may be presented in a picture as a ten-story palace.

### APPRASING GUESSWORK.

With regard to the value of the stocks and bonds the appraisement is the merest guesswork. So far as the statement issued by the syndicate shows there are no bonds in its possession and the stocks consist of shares in the Oakland Transit system of street railways and the Key route ferry and road. There are no market quotations on these stocks and why they should be marked up in the statement is not explained.

The value of these stocks is wholly dependent on the amount of the bond issue, which takes priority over them. The company has advertised a call for an issue to increase its bonded debt on the street railway system in Oakland by about \$1,000,000. An issue of that kind is not calculated to increase the value of the stock. The stock pays no dividends.

The most extraordinary feature of the scheme of finance devised by these people is that they are paying interest at both ends on a large part of the investment. They borrow money on unsecured notes (investment certificates) at 6 per cent. That borrowed money is invested in real estate and a mortgage at 7 per cent or more is clapped on it. The statements is used by the syndicate to show what proportion of the real estate is free from incumbrance, but a very considerable part of it is mortgaged.

### PAYING DOUBLE INTEREST.

To the extent that property bought by money borrowed on investment certificates is subsequently covered by mortgage, it is paying double interest. Later it is proposed when the necessary searches of the records are completed to go into the actual facts disclosed by that investigation.

**England and Russia Decide to Have Arbitration Rather Than War.**

It is announced from London today that the crisis threatened in the relations of Great Britain and Russia because of the North Sea incident, has been averted and a satisfactory settlement reached.

A proposition to refer the matter to a mixed court of inquiry has been accepted and the inquiry will be held at The Hague under the rules of The Hague convention. The appointment of the arbitrators will be discussed tomorrow between Ambassador Benckendorff and Lord Lansdowne. In the meantime orders have gone from St Petersburg to Vice-Admiral Rojestvensky to hold his ships at Vigo, Spain, and Spain will be asked to permit those Russian ships concerned in the incident to remain there until the inquiry is completed. The remainder of the squadron is expected to proceed to its destination.

LONDON October 28, 4:07 p.m.—The Associated Press is authorized to state that in principle a satisfactory settlement of the Anglo-Russian dispute has been reached. Several details and formalities remain to be arranged but the proposal to refer the matter to a court of inquiry has been accepted in principle.

### HOLDS SQUADRON

LONDON October 28, 1:34 p.m.—Orders have been issued and acknowledged by Vice-Admiral Rojestvensky that the Russian squadron remain at Vigo until the conclusion of the present Russo-British negotiations. This

account of the large commissions paid to canvassers for persuading people to lend their money on notes that no bank will accept as collateral.

If these commissions be figured at 15 per cent of the sum borrowed, that would amount to over \$600,000 on the present total of this indebtedness. Whatever the sum paid it must be added to the interest charge shouldered by the syndicate. Fifteen per cent is a moderate charge for this class of work because insurance solicitors for similar work are paid 20 and 25 per cent. But if we figure the commission at 10 per cent that would still exceed the enormous sum of \$100,000 to be added to the interest charge.

Figuring the interest on the investment certificates at 6 per cent, on the mortgages at 7 per cent and on the bills payable at 5 per cent, the annual payments for interest of the Realty Syndicate would amount to \$338,590. The interest on mortgages is here figured at 7 per cent for round figures, although most of them pay a higher rate. Added to the interest charge there is the cost of roadmaking and other extensive improvements which are required to bring the 10,000 acres of villa sites on the foothills into any sort of salable condition and there are besides the high salaries of an expensive administrative staff.

**NO INCOME FROM STOCK.**

The real estate market in Oakland in the past two years has been unusually active. So long as that condition continues the Realty Syndicate will have an income to meet its annual interest. But this market is subject to periods of depression. Suppose suburban properties should become unsaleable. There are periods when even the best city residence property cannot be sold at anything like its true value. What will then be the financial condition of the Oakland Realty Syndicate? Interest does not cease when markets are flat.

The Realty Syndicate cannot look for any income from its holdings of stock in the Oakland Transit Company for a considerable time to come because the system is badly in need of repair. Large sections of the roadway need reconstruction and an increase of the bonded debt is proposed.

The figures here used are those issued by the corporation and of course make the most favorable showing that can be presented of its financial condition.

Later it is proposed when the necessary searches of the records are completed to go into the actual facts disclosed by that investigation.

## FURIOUS ATTACK BY JAPS.

**Capture Two Forts and Damage Warship in Port.**

The main Russian and Japanese forces which confront each other south of Mukden have not yet become engaged, although small affairs continue. Yesterday the Japanese rushed a high hill held by the Russians and succeeded in dislodging them after a hand-to-hand fight. The position was defended by about a regiment with five machine guns. It is described as important as a post of observation.

Tokio hears unofficially that the Japanese opened a desperate attack October 26 on the forts around Port Arthur, occupying several positions and silencing a number of Russian batteries. *One Foo* reports that advice received from the besieged fortress says that fighting is almost continuous.

SHANGHAI October 28—It is reported that the Japanese have occupied two forts to the northeast of Port Arthur that a Russian battleship in the harbor has been sunk and that the Japanese attack on the rear is becoming more furious. This report lacks confirmation.

### ATTACK FORTS

TOKIO October 28, 4:20 p.m.—It is reported that the Japanese opened a desperate general attack up in the eastern forts of the Keekwan goup, north of Port Arthur during the morning of October 26 and silenced the Russian batteries. A shell exploded the Russian magazines.

Simultaneously the Japanese attacked the forts on Rihun mountain and Sungshohuan mountain and silenced the Russian batteries and stormed and occupied the forts in front of these mountains.

On the night of October 27 there was a conflagration in old Port Arthur and on October 27 a shell hit the Russian battleship Sebastopol and two Russian steamers were sunk.

Official confirmation of the above is lacking but the reports are believed to be true.

### SHARP FIGHT

GENERAL KUROKIS HEADQUARTERS October 28, via Fusian—the Japanese gave a stirring exhibition of snappy and determined fighting yesterday when they drove the Russians from a high hill situated ten miles east of the railway and in front of General Kuroki's army (the right).

This hill is important strategically as a post for observations. It was the only point south of the Shikhe river which the Russians held.

About a regiment of Russians were entrenched there. The Russians had five machine guns.

At 4 o'clock in the afternoon the Japanese rushed the second trenches occupied by the Russians. They shot many of the Russians as they were running down the side of the hill and captured two machine guns.

The Japanese had twenty-eight killed and eight wounded. The Russians left thirty dead on the hill.

There was hand to hand fighting when the trenches were taken.

The Russians retired a road the river and when the Japanese flag was raised on the tower surmounting the hill the Russian batteries showered shrapnel on the hill for an hour but without result.

### VESSELS RELEASED

VLADIVOSTOK October 28—The British steamer Allanton and Calcas both seized by the Vladivostok squadron, have been released. A deposit of \$200,000 was made in behalf of the latter vessel, whose case comes up on appeal at St. Petersburg shortly.

Address will also be made by W. S. O'Brien the candidate for the Assembly and others.

## BERT SWAN PASSES AWAY AT THE HOSPITAL.

**Turnkey at San Quentin Prison Could Not Withstand Shock of Operation.**

Weakened by a severe attack of blood poisoning following a wound accidentally sustained by a revolver shot, Bert Hamilton Swan, turnkey at San Quentin prison passed away at midnight after an operation for the removal of his left leg. The fatal termination of the distressing accident comes as a severe shock to the friends of the young man who was well and favorably known on both sides of the bay.

Soon after the operation the patient commenced to sink and despite the efforts of the attending surgeon his condition could not be improved. He met his fate in the same cheery spirit that had characterized his life.

The accident that resulted in Swan's unduly end occurred on October 20 while he was walking with Dr. Case physician at San Quentin prison. While exhibiting a new revolver the weapon was accidentally discharged by the young man the bullet entering his left leg. A serious flesh wound was produced but it was believed that he would soon recover. Night before last however alarming symptoms of blood poisoning set in and after a hasty consultation it was decided to remove the patient to Providence Hospital in Oakland. Yesterday afternoon the operation was performed by Dr. Frank L. Adams assisted by D. D. Crowley.

Bert Hamilton Swan was born in Placer County thirty-five years ago. During his early manhood he was employed by the Sperry Flour Company in Vallejo and later became a deputy at Oaklawn in the office of County Clerk John Cook. He was sincere and the possessor of a particularly joyful and happy disposition. Swan endeared himself to a host of friends.

Mr. Swan was a member of the Woodmen of the World and at one time was actively connected with the administration of the Oakland Fire Department.

The funeral will be held next Sunday at 2 o'clock from the First Congregational Church and the interment will take place in the family plot at Mountain View Cemetery. Rev. Dwight Pottel of Oakland will officiate. The pall bearers will be E. C. Jordan, Dr. Case, J. M. Mitchell, Cal Edwing, J. P. Cook, Charles F. Pugh, James Glover and Al Williams.

At the last session of the Legislature the young deputy clerk resigned his position to accept the appointment of his father as a tenured him in Assemblyman William H. Wade. His valuable services to the administration of the Legislature, the prison board appointed him turnkey at San Quentin.

During his term of office at the penitentiary he proved himself to be fearless in the performance of duty and was recognized as one of the most trust worthy and efficient men at the prison.

Besides a wife and two children several other relatives are left to mourn the deceased. Mrs. Swan was Mrs. Alice Cutler of Vallejo, the marriage taking place twelve years ago.

The deceased was the son of George Swan of Hollister and the nephew of Mrs. L. P. Hutchins of the Netherlands. Bert's mother was Mrs. Mary Swan and his brother Earl Swan is Yokohama two years ago cast a gloom over the entire community at the University of California.

Owing to the absence of Peter Deuchi, a scavenger, accused of collecting garbage in violation of the law, in the Police Court this morning, Attorney Creeley representing him, pleaded guilty. The sentence was set for November 2 by Judge Samuels.

In speaking of his reasons for pleading guilty, Attorney Creeley said that he thought that it was the easiest way out of the matter. He said that it was his fault that his client had been sent to the court for trial because he thought it best not to put the court to any further inconvenience. Bail to amount of \$10 was deposited for the defendant's appearance. A jury had been summoned to try the case but was dismissed.

## BELIEVES TYNER GUILTY.

### President Makes Public Letter Accusing Former Official.

WASHINGTON, Oct. 28.—By direction of the President, Secretary Loeb today sent to James N. Tyner, the former Assistant Attorney-General for the Postoffice Department, a letter in reply to Mr. Tyner's letter dated October 8th and made public last night. The letter says that the question of Mr. Tyner's guilt on the criminal charge on which he was tried has been passed upon by a jury and the President acquiesces in the jury's finding, but the evidence seems to him overwhelming that you (Mr. Tyner) were guilty either of moral obliquity in performance of duty or of the grossest inefficiency."

The letter follows:

"White House, Washington, D. C., October 28, 1904.—Sir: The President has received this morning your letter dated October 8th, written in answer to my letter of June 24th, which I have never made public, although you did make public your own letter which it answered. In your present letter you again claim that a wrong has been done you, and ask that it be righted. As you are out of office the righting of the wrong could only be effected by your reinstatement to office, or a declaration by the President that you were innocent. The President instructs me to say to you that his memorandum to which you take exception was written when three indictments against you had been returned by the Grand Jury, the report of Mr. Bristow having been submitted to Messrs. Bonaparte and Conrad, and the action taken against you by the Department of Justice being on the recommendation of Messrs. Bonaparte and Conrad.

"In his memorandum the President referred to your office as follows:

"The investigation discloses a condition of gross corruption in the office of the Assistant Attorney General for the Postoffice Department. In the case of Assistant Attorney General Tyner, (the misconduct) has gone on for a number of years, but it is impossible to say exactly when it began.

"In the office of the Assistant Attorney General for the Postoffice Department, under Tyner and Barrett, far greater wrongs were inflicted on the public than could be measured by a pecuniary standard, for in this office the corruption of the government officials took the form of favoring got-rich-quicks concerns and similar swindling schemes; in other words, the criminals, whom it was the sworn duty of these government officials to prosecute, paid them for permission to fleece the public un molested.

"Of the criminal charges on which you were tried you were declared innocent by a jury in a court of law. The verdict is final as regards all citizens, including the President. There is, however, a wide difference between misconduct which is criminal, and declared such by the courts, and misconduct which, though it does not render the wrong-doer liable to the criminal law, yet requires his immediate separation from the Government service and justifies his severe condemnation by the general community on moral grounds. You were acquitted of conspiring with Barrett to do certain criminal deeds. You were not acquitted of doing the deeds."

The suit against Alameda county brought by the State of California to recover the sum of \$7,330 for the keeping of insane patients at the Feeble Minded Home at Glen Ellen in Sonoma county, is to come up before Judge Shields at Sacramento tomorrow and Deputy District Attorney Everett Brown leaves today to represent the county in the case.

The suit arises out of the fact that the claim has never been paid by the Board of Supervisors. It is alleged in answer to the allegations of the complainant that there is no record of the claim ever having been presented to the Board of Supervisors. The Board was advised not to pay the claim until a due and verified claim was presented which, it is alleged, has not been done.

Under a law passed in 1887 the Legislature passed a bill making it compulsory for the payment of \$10 a month by counties for each patient sent to the Home and for the committing magistrate to make an order in the commitment for the payment of this sum. In 1889 this was changed so that the claim became due with the order for the money being signed by the judge.

A suit for money thus due was brought against Sonoma county for money where the judge had failed to make the necessary order and the State lost. Suit has now been brought for persons committed during these two years where the judge did make the necessary order.

MOTORMAN O. S. Freeberg and Conductor W. R. Jones, while making their midnight trip on the Market street car line last night had an encounter with a highwayman which ended the robber being put to flight.

The robber jumped aboard the car near the yards on Hollins street and aiming a revolver at Freeberg, ordered him to turn up his hand.

The motorman instead of obeying made a dash for the fellow who fired a shot. Freeberg missed it by a clever dodge.

The intruder then jumped from the car and fled.

England and Russia Send the Issue to Arbitration.

LONDON, October 28.—The entire dispute was ended when Ambassador Benckendorff saw Lord Lansdowne after the Cabinet meeting.

A final inquiry will be held at The Hague under the rules of The Hague convention.

The appointment of the arbitrators will be discussed tomorrow between Ambassador Benckendorff and Lord Lansdowne.

The only detail which remains to be arranged is the permission of Spain for

the portion of the Russian squadron concerned in the North Sea incident to remain at Vigo until the inquiry is completed.

This, no doubt, will be obtained.

The remainder of the Russian squadron is expected to proceed to its destination.

It is suggested that the articles of the convention concluded at The Hague furnish a good and satisfactory basis for the contemplated procedure. Article 9, etc., of the convention, dealing with international commissions of inquiry regarding "differences involving neither honor or vital interest arising from differences of opinion on points of fact" and how the court of inquiry shall be constituted are considered to meet the situation.

Mr. Balfour will thus be enabled to tell his audience to night of the practical settlement of the dispute, which, but for this solution, would have led to a clash between the British channel squadron and the Russian second Pacific squadron, which must have plunged the two countries into war. How near was the rupture is evidenced by the fact that Great Britain went to the length of conveying a strong hint to Russia that unless satisfaction was given, ensuring an adequate inquiry and the punishment of anyone found guilty, the Russian squadron will not be allowed to proceed beyond Tangier.

Even this morning, in despatching chafers from Gibraltar, Vice Admiral Lord Beresford, the commander of the channel squadron, is reported to have signaled them "Situation critical. Good luck!"

Throughout the affair the influence of the recent Anglo-French understanding has been a potent element, and Ambassador Cambon, whether acting personally in behalf of the French Government, has been indefatigable in using his close relationship with both the British Government and the Russian Embassy to bring about an honorable settlement.

It is alleged in answer to the allegations of the complainant that there is no record of the claim ever having been presented to the Board of Supervisors. The Board was advised not to pay the claim until a due and verified claim was presented which, it is alleged, has not been done.

Under a law passed in 1887 the Legislature passed a bill making it compulsory for the payment of \$10 a month by counties for each patient sent to the Home and for the committing magistrate to make an order in the commitment for the payment of this sum. In 1889 this was changed so that the claim became due with the order for the money being signed by the judge.

A suit for money thus due was brought against Sonoma county for money where the judge had failed to make the necessary order and the State lost. Suit has now been brought for persons committed during these two years where the judge did make the necessary order.

"Of the criminal charges on which you were tried you were declared innocent by a jury in a court of law. The verdict is final as regards all citizens, including the President. There is, however, a wide difference between misconduct which is criminal, and declared such by the courts, and misconduct which, though it does not render the wrong-doer liable to the criminal law, yet requires his immediate separation from the Government service and justifies his severe condemnation by the general community on moral grounds. You were acquitted of conspiring with Barrett to do certain criminal deeds. You were not acquitted of doing the deeds."

The suit against Alameda county brought by the State of California to recover the sum of \$7,330 for the keeping of insane patients at the Feeble Minded Home at Glen Ellen in Sonoma county, is to come up before Judge Shields at Sacramento tomorrow and Deputy District Attorney Everett Brown leaves today to represent the county in the case.

The suit arises out of the fact that the claim has never been paid by the Board of Supervisors. It is alleged in answer to the allegations of the complainant that there is no record of the claim ever having been presented to the Board of Supervisors. ## WORKMEN HOLD CELEBRATION.

MEMBERS OF THE ORDER ENJOY AN INTERESTING PROGRAM.

The members of the Ancient Order of United Workmen were out in force last evening to celebrate the thirty-sixth anniversary of the founding of the order.

Fraternal Hall was filled with members and their friends. The affair was under the auspices of Oak Leaf and Pacific Lodges and Ivy Lodge of the Degree of Honor, and was carried through very smoothly.

Governor Pardee, who is a past master Workman of Oak Leaf Lodge, sent a communication to the gathering, expressing regret at his inability to be present, and assuring the members that his heart is still with them. The reading of the message was received with hearty applause.

J. S. Gilmore, past master Workman, made a few introductory remarks, followed by an address of welcome by Grand Overseer W. J. Peterkin, otherwise known as the captain of Oakland's police, and a musical selection by Lercher's orchestra, after which the Degree of Honor was discussed by its grand recorder, Miss Loretta F. Donnelly. Miss Flora A. Juillerat rendered a soprano solo, and W. H. Barnes, past grand master, made a short address. George A. Hall, W. J. Oakes, and Grand Receiver Sam Booth rendered vocal solos, and Miss Bertha Clark gave a recitation very acceptably.

Dancing was indulged in from 11 to 12.

### STATEMENT CORRECTED.

Editor TRIBUNE—Through the columns of the TRIBUNE I wish to correct the statement made in the Oct. 21 Times, published 27th inst., that the boy who fell from the horizontal bar and broke his arm at the Boys' Retreat was training for a boxing match with a pugilist of the same age.

The boy was taking his regular exercise with the other boys. He was not training for a boxing match. We have no pugilists here. Retreat nor do we encourage this sport.

He is a school boy; has never been known to sell papers and is not the support of his widowed mother.

The public is cordially invited to visit the Boys' Retreat during the evening hours, from 6:30 to 8:30 p. m.

## WINDSOR SANFORD LOST HIS BRIDE.

**Woman Declares Marriage Was Not Legal and Changed Her Mind.**

Winsor David Sanford, who on Monday just supposed that he was a married man, is now forced to the conclusion that his wedding was a myth.

On the afternoon of the day mentioned he and Mrs. Sidney Horsford were united in marriage by Mrs. Ann Ware of New Broadway, who claimed to be a regularly ordained minister of the church of Christ. There were no witnesses to the ceremony and Mrs. Ware did not fill out the marriage certificate.

The couple then left the house, but in the evening Sanford returned alone. The next morning he received the following letter from his bride: "Dear Mr. Sanford—I asked a lawyer this morning about our marriage and he said it was not legal. That meant you had to be a licensed minister before you could do it and had to have a witness, so I think it is better for me to stay with my children alone as I don't want to marry."

"I am going to Salt Lake, Utah, in a few days to get a wife somewhere else. Good-bye."

Sanford has made the following statement regarding his matrimonial venture:

"For some time I have been sick and out of work and have been living with Mrs. Ward who is a widow and also Mrs. Ward did not fill out the marriage certificate."

The couple then left the house, but in the evening Sanford returned alone. # THE LATEST NEWS OF THE DAY=4:30 P. M.

## WHOLE FAMILY NEARLY POISONED.

**Diabolical Crime of Servant Girl is Discovered in the Nick of Time.**

SAN FRANCISCO, Oct 28—Providence alone working through the instrumentality of little Hildegard Jackson saved the family of H. G. Jackson, a mail order man of 2658 Market street, from probable death yesterday. Carbolic acid sufficient to cause the death of a dozen persons had been placed in milk which Mrs. Jackson used to make pancakes with. Only the acuteness of scent on the part of the child saved the lives of the family consisting of Mr. Jackson, Mrs. Jackson, Hildegard Jackson aged 9, and a little baby 6 weeks old.

The poison was placed in the milk by a servant girl named Rose Haulsworth 17 years old, who was under suspicion for a theft committed in the house last Saturday evening. Why she did it is not known. It is supposed that the girl is deranged. She is being held at the City Prison to await examination by the Lunacy Commission.

The causes that led to the girl's attempt to murder an entire family are as follows: Last Saturday afternoon Mr. and Mrs. Jackson left the house to go to the Park. The servant girl was left in charge of the house, with instructions to take Hildegard Jackson to dancing school. The maid told Hildegard to go on ahead and that she and the baby would follow on another car.

After dancing school was over Mr. and Mrs. Jackson met the maid and children and all returned home together. When they entered the house Rose who was leading uttered a cry as she came to the head of the stairs and said, "The house has been robbed."

## HER DIAMONDS RETURNED.

SAN FRANCISCO October 28—The diamonds which were stolen from Mrs. Enrico Hirschfeld last Thursday were returned to her today by mail. They are valued at about \$3000 and had been removed from their settings. The box in which they were enclosed is in the hands of detectives who are working on a clue that may lead not only to the burglars implicated in this robbery but also in the robbery of \$5000 worth of jewels from Mrs. H. Wallace about two weeks ago.

### SIR WILLIAM HAROURT'S UNPOPULARITY.

Now that Sir William Harourt is dead they are telling a story in England which shows how unpopular he was in his early life. Three men went to a club one evening talking of a big public dinner which was to be given at an early date and each said he could bring the best heated man in London to the dinner. Two showed up alone and the third brought Sir William, who explained in all innocence that he was very sorry that he could not accept the invitation of the first two as he had already accepted the third.

Later Mrs. Jackson used the milk and cream to make pancakes and the family started to eat the little girl again.

## SHE HOLDS LETTERS.

**Woman Refuses to Give Them Up in Dolbeer Case**

SAN FRANCISCO October 28—The three letters written by Etta May Warren to Miss Elizabeth Moran of New York are looming large in importance in the Dolbeer will contest. Miss Moran may yet be sent to jail for declining to deliver them to the attorney general. The matter will be taken to the New York courts.

The commission taking testimony in the case in New York were incensed at Mrs. Moran's refusal to give up the letters which are said to hold important references to Bertha Dolbeer's mental condition and telegraphed yesterday to this city for permission from the Superior Court to punish the witness for contempt. The demand was not granted.

It is believed Miss Moran the trained nurse who attended John Dolbeer during his last illness may be forced to produce the correspondence or suffer for her refusal to do so. The letters were written while Miss Warren and Bertha Dolbeer were in Europe.

The taking of testimony before the commission in New York has developed no further sensation. Mrs. Julie Shaw was called to meet Miss Dolbeer on the California trip last spring when she noticed nothing peculiar in the girl's actions.

## RESOLUTIONS ARE DISCUSSED.

### TRANS-MISSISSIPPI CONGRESS CONSIDERS MANY MATTERS.

ST LOUIS October 28—The principal business before the Trans-Mississippi Congress today was a discussion of resolutions. Thirty recommendations embracing many subjects have been presented.

A resolution presented by H. R. White of St. Louis asks government aid in securing a waterway fourteen feet deep from Lockport Ill. to St. Louis by way of Desplaines Ill. and Mississippi river. This resolution also recommends that the government establish a deep waterway from the lake to the gulf of Mexico.

Thomas Richardson of Portland Oregon chairman of the executive committee recommends that the salaries of United States Congressmen be increased from \$5000 to \$10,000 a year.

In a resolution of B. F. Thurber of New York asks that Congress place its disapproval upon strikes picketing boycotts union labels and similar devices of organized labor. The subject under discussion is Interstate Commerce.

Colonel R. V. Richardson of Omaha demands an additional government improvement of Public Highways.

The president then introduced Frank Werten of Chicago who delivered an address concerning the national government to the Chinese delegation which came to connect the Great Lakes with the Mississippi river. Dr. E. F. Buckley of Mississippi delivered a speech.

Portland Oregon was selected as the meeting place of the congress.

Just before the congress adjourned a vote was adopted providing that all papers provided for in the program which had not been read be turned in.

Included in this provision was an address by Charles Arthur Carlisle of Portland Oregon.

### LITTLE YARNS.

Senator Hearst used to tell of a conversation that took place between two Southerners the first of whom had just returned from a trip through New England. Said the first man from Dixie to his friend, "You know those little white round beans?" "Yes" replied the friend, "the kind we feed to our hogs?" "The very same," said the other, "and I see the three have the white round beans boil them for three or four hours mix them with molasses and I know not what other ingredients bake them and then what do you suppose they do with the beans?" They eat them, sir interrupted the first Southerner, impressively. "Bless me sir, they eat em."

Rear-Admiral Henry C. Taylor often cited as an example of grim humor an incident that befell a young woman who was doing nursing work in the hospitals during the Civil War. One day during her rounds, a young soldier, immediately after she had passed him set up a loud laugh. She turned and looked at him in surprise. He seemed a pitiful case. Noting of him but his face was visible on the little white bed and his young face was sadly thin and pale. Nevertheless, he laughed like one possessed. "Will you tell me what amuses you?" said he. "What am I said he? here you have given me a tract on the sin of dancing when I've got both legs cut off!"

When the leading man in a certain English theatrical company was obliged through illness to give up for a night or two the part he was playing in one of the successful comedies of the season his understudy was so delighted at his opportunity to distinguish himself that he said that his friends would want to witness his triumph that he telegraphed to authors and managers all over London saying, "I shall play A part tonight." No one took any notice of the dispatch save J. M. Barrie, who telegraphed back, "Thanks for the warning."

Probably more women will marry for love if they could afford it.

## FARMERS WIN FIRST ROUND.

**Bay Cities Company Must Now Answer Complaint.**

SAN JOSE October 28—J. G. Rhodes today handed down an opinion in which he overruled the demurrers of the Bay Cities Water Company to the suit brought by Charles Hill to restrain the company from diverting the waters of Coyote Creek at a point where they sink into underground streams forming a waterfall, an artesian supply.

Judge Rhodes was fully in the law governing the use of surface waters and the right to restrain by injunction any interference with its use by land owners or by the state. He found in his opinion that the physical facts in this valley showing formation of soil and strata of the valley sources and trend of its subsurface waters and their relation to the surface streams.

He sustained the plaintiff's contention as to the law throwing upon defendant the task of proving that the physical facts in this particular case are not such as would come under the law as interpreted by the court.

The fruit growers in a large section of the valley are convinced that upon the outcome of the suit against the company depends the future success of their crops and this decision is awaited with great interest at the trial stage of the proceedings.

## HOPE TO END THE TROUBLE.

**Russia Doing Everything to Bring About Settlement.**

LONDON October 28—Russian Ambassador Benkendorff paid another visit this morning to Foreign Secretary Lansdowne at the latter's private residence. The visit was made before half past ten o'clock. The ambassador conveyed to the Minister further despatches from the Russian Government.

The earliness of the call is accounted for by the necessity for placing the Foreign Minister in possession of the latest views of the government at St. Petersburg regarding the North Sea incident so that Lord Lansdowne would be in a position to communicate with his colleagues at the Cabinet meeting today the fullest details regarding the negotiations up to date. The Ambassador's stay did not last more than a half hour.

Ambassador Cambon again was present and remained at Lord Lansdowne's few minutes after the departure of Count Benkendorff.

There are evidences of increasing belief among the well-informed persons that the dispute between Russia and Great Britain will not lead to serious complications and that an amicable settlement will be reached. Russia so far as is known is showing every disposition to meet the British views and it is conceded that the delay in replying to the British demands is readily explainable on the ground that the Russian government usually desires to be placed in possession from its own sources of all details connected with the occurrence.

Subsequently Mr. Balfour the Premier and Foreign Secretary Lansdowne had a somewhat prolonged conference. They then proceeded to the meeting of the Cabinet which was attended by the whole ministry.

Subsequent to their meeting at Lansdowne House Ambassador Benkendorff and Ambassador Cambon held a conference at the French embassy and later the statement was issued by the Russian embassy saying it was in constant communication with the British Government and as a result of these communications the embassy hoped that there would be a speedy and satisfactory settlement and that the whole aspect of the situation had decidedly improved.

## HE TOOK HIS LIFE.

**German Finds An Easy Way to End Career.**

SAN FRANCISCO, October 28—Buried his face in a mass of cotton saturated with chloroform and pulling the bed clothes over his head, Charles Schmidt passed to his last sleep sometime last night. His dead body was found at 8:30 o'clock this morning by his landlord at 70 Fulton Street.

Schmidt failed to appear at his usual time this morning and Voekel poured up the door of his lodger's room in an attempt to wake him. Being unsuccessful he gained entrance to the apartment through a rear window and found Schmidt a corpse.

The dead man was German by nationality and a monument cleaner by occupation. He was 35 years of age and had lived in San Francisco about three years having come from the East. He has rather secretively about his personal affairs and those with whom he lived knew little of his past life.

He was buried in a mass of cotton.

Marshall Korn has been notified of the occurrence and the men in the neighborhood intend to keep an armed watch for the fellow and if he is caught it will go hard with him.

## PEEPER AT WORK.

**Terrifies Women in Many Homes in Berkeley.**

BERKELEY Oct 28—Tom-the-Peeper has made his appearance in the college town and the residents in the neighborhood of Channing Way and Fulton street where the fellow has been operating a e greatly excited as a result.

The unknown miscreant last night mounted the porch of the residence of Mrs. A. Thelton 22 Channing Way and began his prying tactics. Although Mrs. Thelton was home alone she bravely opened the door and set up an outcry which frightened the fellow away. At first it was thought that the stranger was a burglar but as he had been peeping through the windows of several houses in the neighborhood among them being the home of Mrs. Rosenthal and Mrs. B. Parker of 2126 Channing Way, it is supposed that his object is to terrorize defenseless women.

Marshall Korn has been notified of the occurrence and the men in the neighborhood intend to keep an armed watch for the fellow and if he is caught it will go hard with him.

## MAN IS BURNED TO DEATH.

**Destructive Fire Brings Disaster on Big New York Pier.**

NEW YORK October 28—One man was burned to death and another seriously injured in a fire at the Bush Terminal Company's pier South Brooklyn. All the men were working on the pier when the fire started. The dead man is Pauline Cullung, a Chinese laundryman.

The unknown miscreant last night mounted the porch of the residence of Mrs. A. Thelton 22 Channing Way and began his prying tactics. Although Mrs. Thelton was home alone she bravely opened the door and set up an outcry which frightened the fellow away. At first it was thought that the stranger was a burglar but as he had been peeping through the windows of several houses in the neighborhood among them being the home of Mrs. Rosenthal and Mrs. B. Parker of 2126 Channing Way, it is supposed that his object is to terrorize defenseless women.

Marshall Korn has been notified of the occurrence and the men in the neighborhood intend to keep an armed watch for the fellow and if he is caught it will go hard with him.

The pier was 700 feet in length and was one of the largest in this vicinity. The flames soon reached the lighter bushy trees and another knot of No. 20 all laden with cotton and then jumped to Pier 6 at the foot of Forty-sixth street and set fire to the Italian garden. The fire spread to Pier 5 and then to Pier 7 and set fire to the Italian garden. The fire spread to Pier 5 and then to Pier 7 and set fire to the Italian garden.

A number of steamships and smaller craft were taken out into the stream and escaped the flames. Fire Commissioner Doyle says "he loss will not exceed \$300,000."

It was at first reported that several steamships belonging to the American-Hawaiian Steamship Company were burned but the steamers belonging to that company were towed out into the river in safe.

### DAMAGE SUIT IS DISMISSED

### REPUBLICANS PLAN MEETINGS

Cecil Hitchcock a special policeman, dismissed his suit against W. Havemeyer Jr., nephew of the sugar magnate, to recover \$25,000 damages for alleged slander. It was stipulated that Hitchcock would not be liable for any costs on the bond he filed in the action. In his suit, Hitchcock alleged that on February 24th Havemeyer said to him, in the presence of witnesses, "You are a thief. You stole." It was alleged that the statements were made at the Havemeyer home, 173 Santa Rosa avenue, Piedmont. Havemeyer had retained attorneys to defend the action and had filed an un-

answerable defense of the use of the alleged language.

The pictures were very fine and the professor who has traveled extensively in that country and who made the pictures himself gave a very minute and interesting description of each view, giving the names of many places which appeared in the pictures with whom the professor was intimately acquainted.

The audience listened with interest to the last. Those who missed the first part should be present next night and witness the best part of the entertainment.

On Friday, November the 4th, the Republican Alliance Marching Club of Oakland will go to San Jose. A rally will be held in behalf of Duncan E. McKinlay, the Republican candidate for Congress from the Fifth district.

### SUBWAY SYSTEM FOR CHICAGO

CHICAGO October 28.—A comprehensive subway system for Chicago will be started before April 1906 according to Alderman J. Foreman, chairman of the Transportation Committee of the City Council. The system as outlined by Mr. Foreman in an address at the Real Estate Board banquet will extend east and south as Twelfth street, as far north as Chicago avenue and as far west as Halsted street. The subway will accommodate through traffic. Surface cars will continue to carry local traffic.

The tunnel, if the present plans are carried out, will be divided into four compartments. Two of these will be for railways, the other for such public utilities as heating and refrigerating plants, high water pressure pipes and electric wiring. The present tunnels will be utilized in the new system.

Alderman Foreman explained while the cars after leaving the subways will be on their elevated structures or through alleys.

A fund of \$2,000,000 is on hand for the beginning of the work, Mr. Foreman stated. This sum is sufficient to keep construction work going on two years.

Supreme Organizer C. C. Bert was present during the greater part of the campaign and helped in the work.

WHY APPENDICITIS?

Why is appendicitis so common today? Because we have got into the pernicious habit of eating too fast.

Dr. Curtis, the great authority on this disease, says: "Appendicitis often follows the eating of a very hasty, or particularly large or indigestible meal."

After carelessly following a foolish custom, you can ensure your safety by taking Stuart's Dyspepsia Tablets.

It is an accepted, scientific truth, which admits of no dispute, that if you will only keep your digestive apparatus in good order, you will never suffer from this dread disease, which at best means a weakening operation, with long weeks wasted in bed, and big doctor's and surgeon's bills to pay as souvenirs.

Keep your appendix in health by the proper use of Stuart's Dyspepsia Tablets, whenever you have laid yourself open to danger by overeating, and upon the least sign of stomach or intestinal trouble, for otherwise, at any time, this dangerous disease may lay you low.

The curative influence of this great medicine is quickly shown in the general health, as otherwise it has on all informed conditions of any part of the digestive tract.

Stuart's Dyspepsia Tablets tone all these parts up to a proper condition of perfect health, and regulate their functions into a proper working state.

They also make away with all the causes of irritation, inflammation or indigestion, by helping to dissolve, digest and assimilate, or put to proper use, all the food which is lying around in all corners of your digestive apparatus, fermenting, rotting and curdling, like so much garbage in a dirty sink.

In these natural and perfectly simple ways, Stuart's Dyspepsia Tablets restore all sufferers, from any form of dyspeptic trouble, to health.

They are safe and reliable. They never fail to relieve and cure, quickly and permanently.

Use them, and you need never worry about your appendix verminiformis.

## METCALF IS A LEADER IN WASHINGTON.

George E. De Golia Tells of His  
Visit to the Secretary  
of Commerce.

George De Golia returned yes erday from a three-weeks trip through the Eastern cities, accompanied by Mrs. De Golia. When asked about his trip he said:

"We had a delightful trip goin' east, having Secretary Metcalf as a traveling companion as far as Chicago, where he left us to attend the funeral of Postmaster-General Payne, at Milwaukee. We spent five days in Washington, where I had considerable law business before one of the departments, and, incidentally, was admitted to practice before the Supreme Court, on motion of George A. Knight. Washington is a beautiful city, made so because of the centralization of power in the commissioners, and they spend all the money that can be obtained from Congress, for the betterment of the city. I found nobody in Washington better thought of by everybody, from the President down, than our townsmen, Victor H. Metcalf and, I might say that his charming wife is, if anything, more popular than he. From a great many standpoints, particularly the stan points that affect the people of the United States directly, Mr. Metcalf has the most responsible Cabinet position of any, surely one that calls for the hardest work, so far as the internal affairs of the nation are concerned. He has an entire six story building, simply for his office and clerical force, and a number of other bureaus elsewhere located in the city, report to him. I tell you, it made me feel proud to think that one of our fellow townsmen had been so highly thought of, trusted and honored by the President, in the selection of Mr. Metcalf or this responsible position. No one stands any higher in Washington to-day than Victor H. Metcalf, and he was very courteous to us, as he is at visiting California. One day he came through the line of about two hundred people, waiting to see the President, and said, 'Just go right in and see the President.' I am sure he is a man of great ability and a good judge of men."

**BUILDING NOTES.**

Mrs. C. Carreto is building an addition to her store on Orchard avenue and San Leandro road.

Philip Cook will erect handsome five-room house on his property on Hillside street.

M. J. Silva is building a modern cottage in Jones avenue. The new house will be completed in about six weeks. It will be fitted with modern appliances within and without.

**POLITICS.**

"I am sure President Roosevelt is President, and that no man or body of men could make him under any circumstances, do otherwise than what he thought was right. He has a very strong, rugged personality, talks directly to the point, chooses his words admirably, and means every word he says, and Mr. Metcalf tells me that Roosevelt himself stated on details to a marvelous degree. All Washington is also full of praise for Secretary of State John Hay. They consider him as the greatest diplomat of the present time. He has made America respected throughout the world and as was said to me there has introduced a new feature in diplomacy. That of American honesty which has in a measure revolutionized international diplomacy."

**AT BALTIMORE.**

"I spent a day in Baltimore and walked for an hour through the burned district, a most pitiful sight. Ten thirteen story brick buildings are standing with nothing but granite or stone walls, with twisted iron girders holding them together. The base had been taken off and the chimneys seemed to have made chimneys of these skyscrapers. Buildings are going on very slowly. They are building here and there only one or two in a block. I had a delightful time with the grand exalted ruler of the Elks, whose office is in Baltimore.

**THE ELECTION.**

"The election of Roosevelt is considered a foregone conclusion in the East, by men who are well posted. I was told by a prominent Democrat in New York City, not to mention his name, that Roosevelt's election would be a landslide. The Democrats will be in the saddle, and the Republicans, led by the Democratic leaders, a strong division, or rather a strong hold for the organization of a new party four years hence, with Bryan and Hearst and the new Democratic leaders at the

**TEA**  
Tea is like poetry; also like eggs; a little bit like woman herself. There is no middling.

Miss Rose Peterson, Secretary of Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to use Lydia E. Pinkham's Vegetable Compound.

How many beautiful young girls develop into worn, listless and hopeless women, simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally.

If you know of any young lady who is sick, and needs motherly advice, ask her to write to Mrs. Pinkham at Lynn, Mass., who will give her advice free, from a source of knowledge which is unequalled in the country. Do not hesitate about stating details which one may not like to talk about, and which are essential for a full understanding of the case.

**Miss Hannah E. Mershon, Collingswood, N. J., says:**

"I thought I would write and tell you that, by following your kind advice, I feel like a new person. I was always thin and delicate, and so weak that I could hardly do anything. Menstruation was irregular.

"I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and menstruate regularly. I cannot say enough for what your medicine did for me."

**How Mrs. Pinkham Helped Fannie Kumpf.**

"DEAR MRS. PINKHAM:—I feel it is my duty to write and tell you of the benefit I have derived from your advice and the use of Lydia E. Pinkham's Vegetable Compound. The pains in my back and womb have all left me, and my menstrual trouble is corrected. I am very thankful for the good advice you gave me, and I shall recommend your medicine to all who suffer from female weakness." —MISS FANNIE KUMPF, 1922 Chester St., Little Rock, Ark. (Dec. 16, 1900)

**Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from womb troubles, inflammation of the ovaries, kidney troubles, nervous excitability, nervous prostration, and all forms of woman's special ills.**

**\$5000 FORFEIT** if we cannot forthcoming produce the original letters and signatures of above testimonial, which will prove their absolute genuineness.

## PROOFS THAT PROVE

"REGAL—the Shoe that Proves," is a claim based on undeniable facts.

The "Window of the Sole" proves in every Regal shoe genuine Oak Tanned soles—flexible, light, durable—tanned in our Regal tanneries by old-fashioned, slow processes.

The Buzz Saw proves honest Regal workmanship throughout—every detail, hidden or otherwise, of a standard to match the excellence of our famous King Calf uppers—the toughest, most pliable leather ever put into a shoe.

Regal excellence in these hidden qualities insures perfect shape retention and that lasting \$10 custom look, which marks Regals to the very end of their long, satisfactory wear.

Of all shoes which have left our factory none has proved Regal excellence in style, material and workmanship more conclusively than

## The Labor Union Vote

It has not been figured out what one large voting element will do in this campaign. Nobody is able to state what the trades-union men will do. Many statements are made as to their intentions by persons who are not closely affiliated with the unions, but there are no statements from union leaders themselves. It is a question whether the members of the unions will vote with any degree of solidarity for President, but there is the likelihood that they may.

If they do whom will they vote for—Roosevelt or Parker?

The probabilities are that they will vote for the former, but they may not. In some localities they undoubtedly will, but in others it is hard to tell what they will do. In San Francisco a large percentage of them will vote for Debs, but those who vote the Socialist ticket there this year will be drawn mainly from the Democratic ranks.

Taking what is to be seen at close range as an indication of the sentiment prevailing in the union labor ranks, the conclusion is inevitable that the Democrats will lose heavily in workingmen's votes. They will lose to the Republicans, the Socialists and the Populists, and they can make no compensatory gains. In a few States—Colorado and Montana, for instance—union men will vote solidly for some candidates at least, but in other States there is no indication of solidarity further than the silence which prevails in their ranks. The union labor vote is strong in New York, New Jersey, Indiana and Connecticut—all classed as doubtful States—and it would be decisive if cast solidly for one party or another. But will it? That is a question that even political managers are unable to decide, for never before have the members of the labor unions been so chary of expressing Presidential preferences. Whether the quiescence is the result of indifference or fixed determination cannot be told till the votes are counted. There is every reason for laboring men to favor Roosevelt and no reason why they should favor Judge Parker, but the fact remains that at no previous time in our political history have labor union men been so close-mouthed as to their intentions—if they have any.

This attitude of silent non-participation in the campaign is the main principle of doubt in the outcome of the election. There appears to be no hostility in the labor ranks toward President Roosevelt, who is warmly admired by John Mitchell and other labor leaders of national importance, and this fact leads astute observers to predict that the bulk of the labor vote will be cast for the Republican Electors. Nevertheless silence gives rise to uncertainty.

## Most Dangerous When Sane

"The Democratic party becomes dangerous when it gets sane," said Senator Platt.

This statement is luminous in the light of past history. When the Democracy is sane it stands a chance to win elections, and when it wins elections disaster results. When it is in its violent fits it is not dangerous because its antics insure its defeat. It is only really dangerous when it is in power.

The Democracy has just recovered—or is convalescent, rather—from a recent fit of emotional insanity. For eight years it had been suffering from financial rabies, of which it now professes to be cured.

It is, therefore, dangerous in the ratio of its capacity to make the country believe that it is sane and safe. But it is no more trustworthy now than when it was the protagonist of wild theories, the adoption of which would have plunged the country into a soft money morass.

The Democratic party is always dangerous because it goes on a spree when it gets into power and goes into convulsions when it is out. It is a good thing to let alone. Of this fact the country has had abundant proof, and the country shows no sign of growing forgetful.

## The Tariff Issue in Canada

The issue in the Dominion of Canada has narrowed down to a question of the degree of protection that the tariff should afford to domestic industries. The Laurier administration stands for the present moderate protective tariff while the Conservatives insist that higher duties should be levied on competing products. Free trade is not an issue, the Liberals who came into power in 1896 as a free trade party, having tactfully abandoned Cobdenism. Incidentally both parties appear to be antagonistic to Joseph Chamberlain's scheme of a preferential tariff between Great Britain and her colonies and dependencies. The Conservatives and Liberals seem of one mind as to the necessity of maintaining a tariff for the protection of Canadian industries. Mr. Chamberlain's scheme would place Canadian markets at the mercy of British manufacturers. For a time it seemed as if the transcontinental railway and imperial interference questions would be paramount issues in the campaign, but the issue as finally drawn is on the tariff. It is a fight between schedules rather than a contest between principles. The Canadians appear to be more anxious for reciprocity with the United States than for closer commercial union with the mother country.

## Judge Parker Sized Up

The Democrats are finding out that an unknown quantity cannot be elected President. An unknown man can be nominated for President but the people are bound to find out all about him before election day. He cannot conceal his opinions any more than he can hide his personality, let him dodge and keep in the background as much as he may. The "dark horse" proposition is therefore, a dangerous experiment. If the nominee cannot stand the searchlight of public examination and criticism the people will have none of him.

In nominating Judge Parker the Democrats made the mistake of supposing he could go through the campaign without making his position clear to the voters. In spite of his silence and reservations he has been forced to declare himself from time to time. It required several different statements to make plain his attitude on the Philippine question. The peculiar exigencies of the situation at the time he was nominated compelled him to define his position on the currency question. By degrees his tariff views have been dragged out of him, and likewise he has been required to explain how he would deal with the trusts, pensions and the like.

His reservations and evasion, his blunders and grossly inaccurate statements, have all gone to show the people what manner of man the Democrats have nominated for President. The people have sounded him and taken his measure. His habits, history, antecedents and associations now make a familiar story to the public. In matters of public policy, they know what he would do and who his advisers would be. They now know he would lower the tariff to a strictly revenue basis, cut the Philippines adrift, reduce pensions, curtail expenditures for building more ships and fortifying our coasts and would institute a cheese paring economy in the departments, that he would have the common law on the trusts, and be advised generally with respect to the predatory corporations by that eminent champion of the people August Belmont.

The people are fully aware that Blue-eyed Billy Sheehan and Pat McCarron would instruct him how to keep the civil service clean, and that John G. Carlisle, Richard Olney, Burke Cochran, et al., would give him the light of their wisdom in smashing the tariff and whacking away at the veterans' pensions.

No; Judge Parker is no longer an unknown quantity. And as the people have sized him up, he does not appear to be a very large quantity. He is like a squab—biggest when first hatched. He is now

disclosed to the people as an amiable negative man, of mediocre talents, loose ideas of government processes and crude notions of political and industrial economy.

## THE LAND OF MEMORIES.

It lies beyond the sunset hills, far and beyond them all,  
Yet when the twilight shadows creep, I hear its voices call;  
I hear its voices calling, an' you will come with me  
We will trudge away together to the Land of Memories.

And whither lies the way to go I have no need to tell;  
The way is by the path of dreams, 'tis you that knows it well;  
'Tis you that knows the way to go, and we'll know it, too.  
You'll follow where the voices call and I will go with you.

The voices there, that call us, we know and loved of old,  
We knew them 'round the firesides when winter nights were cold;  
The friendly word, the welcome word, they kept for you and me  
Through sunlit days of gladness in the Land of Memory.

We'll take the winding pathway and leave our cares behind—  
The loneliness, the hunger and homesick fears that bind.  
We'll leave them all and hasten, until at length we twain  
In the happy Land of Memory have set our feet again.

And, oh, when then our footsteps tread the paths of long ago,  
It's you may turn what way you will, and I will lead you so;  
But I must hurry, hurry on—we've just a while to stay—  
And there's many a door to open ere fades the dream away.

There's many a door to open where sits the kindly smile,  
And many a arm in welcome flung that waits for me the while;  
And 'neath the whispering grasses, where solemn shadows lie,  
There's one who, lying lonely, was the best beloved of all.

'Twill pass and fade, 'twill sink away, and we must turn anew  
To face the burdens of the day, the tasks we have to do;  
But yet, anon, some hungering heart, you'll come again with us  
And we'll steal away together to the Land of Memory.

### RESOLUTIONS ARE PASSED BY FARMERS.

#### HALF MILLION DOLLAR APPROPRIATION FOR AN AGRICULTURAL BUILDING IS ASKED.

BERKELEY, October 28.—One of the leading features of the closing session of the State Farmers' Institute at the University of California, was the passage of an important set of resolutions, conspicuous in which is a clause urging the legislature to appropriate \$500,000 for a new agricultural building. The resolutions are:

"Whereas, the importance of agriculture in our State makes it imperative that the agricultural college of the University be fully equipped for the best work; and

"Whereas, the present building is deplorably lacking; wherefore

"Resolved, that we urge the press upon the legislature the need of immediate, ample appropriations for a farm, and also a building that shall be adequate to the needs of the department to cost not less than \$500,000."

"Resolved, that we express to Dr. Wheeler, Dr. E. W. Gilpin, Professor Wickson and their colleagues our hearty thanks and congratulations at the first State farmers' institute, and we respectfully request that the plan of a State farmers' institute be made perfect;

"Resolved, that we urge the legislature to again enact a road law, similar to the New Jersey road law, which appropriates for roads an amount equal to that voted by any locality, and also that the state road tax be taken from the general fund and not from the funds exclusive of cities."

"Resolved, that we extend to C. H. Markham of the Southern Pacific railroad and to the Santa Fe our thankful appreciation for courteous, extended, which have materially added to the value and success of the institute.

"Whereas, we consider nature study with special reference to agriculture of great value to all children of school age;

"Whereas, it is our judgment imperative for the best good of the children that all the teachers in the public schools be qualified to present such truths in the best possible manner;

"Resolved, that we ask the legislature to take immediate action requiring a thorough course of elementary training in agriculture, as a prerequisite to graduation in all our several normal schools.

"Resolved, that the Legislature be implored to increase the annual appropriation to farmers' institutes from \$5000 to \$10,000.

"Resolved, that we ask the University authorities to arrange for the publication and distribution of 15,000 copies of a report of such of the proceedings of the annual institutes as in their judgment is most worthy of preservation in permanent form, at once or as soon as feasible available for such purpose;

"Resolved, that the United States sub-stations of California, as now located, have done well for agriculture. With a better all-around, better work would be done. We ask that the sub-stations have State assistance, and urge action to that end by the incoming Legislature."

### ALUMNI TO SPEAK AT GREAT RALLY.

#### STUDENTS WILL HOLD A BIG JOLLIFICATION AT GREEK THEATER TONIGHT.

BERKELEY, October 28.—Tonight at 8 o'clock the pajama rally will be held in the Greek Theatre. This will be the last rally in the Greek Theatre before the big game. The first rally will be held on the Thursday immediately preceding the game, in front of the gymnasium, and later on the bleachers. The smoker will be held in the gymnasium the next evening. This will be for men only.

Two hundred and fifty torches will be distributed at the theatre at 7 p. m. by Ernest Vollmer.

Prominent alumni will address the audience, and many others, including one of the football men and one of the coaches.

Elton Hallett, '05, is chairman of the rally committee. J. F. Schuman, '06, chairman of the bleacher rallies for the season, has had general supervision under Hallett. G. J. Anellof, '06, has charge of the wood; B. Campbell, '05, of the advertising; O. Orrich, '05, of the speakers, and E. Vollmer, '07, of the torches. Freshmen will meet in front of the gymnasium at 7 a. m. to get wood.

A special feature is being arranged for in connection with the serpentine, to be given after the speeches. What it is, those in charge will not divulge, but they promise it will be a keen stunt."

### PLAN TO RETIRE OREGON SHORT LINE

NEW YORK, October 28.—Directors of the Oregon Short Line railroad in session here have considered formally a plan to retire the Oregon Short Line and participating bonds, as announced last Tuesday. Although no official announcement was made, it is stated by the Herald that the proposition to exercise the retirement clause in the mortgage was approved and that the bonds probably will be retired in February at the time when the next coupon is payable. In order to retire the bonds on that date it would be necessary to notify the bondholders by November 1, as the mortgage provides, and the bonds will be retired at 103% upon notice to bondholders three months before any interest day.

The object in retiring the bonds which were used to remove the encumbrance that looks up the Northern Securities stock in the treasury of the Short Line. The holders of the bonds also would be able to call for part of dividends from Northern Securities stock in excess of 4 per cent on the bonds. They were originally issued to finance the purchase of Northern Pacific stock by the Harriman interests in 1901.

### WALTER S. MACKAY & CO.

# TORMENTING RHEUMATISM

Columbus, Ohio, May 20, 1903.  
Six years ago I had a severe attack of Inflammatory Rheumatism. I was laid up in bed for six months, and the doctors did me no good. They changed medicines every week and nothing they prescribed seemed to help me. Finally I began the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time my joints were so swollen and painful that I could not close them when opened. I was so bad that I could not move knee or foot. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and to-day I am a sound well man and have never had a return of the disease. S. S. S. purified my blood and cured me of this severe case of Rheumatism after everything else had failed. I have recommended it to others with good results.

R. H. CHAPMAN.  
1355 Mt. Vernon Ave.

The poisonous acids that produce inflammation and pain are absorbed into the blood and Rheumatism can never be conquered till these are neutralized and filtered out of the blood system. S. S. S. goes directly into the circulation and attacks the disease itself. It purifies and restores the blood to a healthy, vigorous condition. It contains no potash, alkali or other strong minerals, but is an acid entirely vegetable. Write us and our physicians will advise without a charge whatever you want to know on Rheumatism sent to us.

NEW YORK, October 28.—Prince Jaime de Bourbon, who is in the hospital at Harbin, suffering from dysentery, is rapidly improving, according to a Herald dispatch from St. Petersburg. He hopes to leave there shortly for Mukden.

## BRIGHT'S DISEASE.

Sweeping the Country—Increase by Decades as Shown by the Census.

The following deaths from Bright's Disease are from authoritative census reports:

1850.....DEATHS.....	1,722
1870.....DEATHS.....	2,258
1880.....DEATHS.....	22,330
1890.....DEATHS.....	55,738

The worry and strain of the American life is ruinous, to the kidneys, and Bright's Disease is getting to be, the National Scourge.

A few years ago many deaths were reported from Bright's Disease, but it is now known to be the real trouble.

A sudden change has come in Kidney Disease. It is now disappearing into Bright's Disease.

In 1880 the census reported deaths from Bright's Disease, but none from Bright's Disease.

In 1890 the 37,519 deaths that year from Bright's Disease, over half were recognized as Bright's Disease.

In 1890 of the 65,672 deaths 55,748 (over nine-tenths) were known to be Bright's Disease.

This is a simple thing we innocently refer to as kidney trouble is now recognized as a common symptom of Bright's Disease.

Kidney trouble, so-called, are recognized by medical works and the profession as Bright's Disease. There is only one cure—only one thing that is made for Bright's Disease alone, and that can show a definite percentage of cures, for Bright's Disease.
